## HOW TO CATCH THE BUS

You will have to be standing at one of the designated bus stops or the bus **will not** stop to pick you up.

To catch the bus you will need to be on the same side of the street that the bus is traveling (passenger side of the bus). We have tried to put signs on both sides of the street where the bus goes in both directions.

There may be some old signs out there, those signs are not included as a designated stop. The sign you need to be standing by is pictured below.

If no sign present stand at the location indicated on the bus stop location.
