

Lorain County Brownfield Coalition
U.S. EPA Brownfields Community-Wide Assessment Grant
Petroleum and Hazardous Substances
Report Period: January 1, 2016 - March 31, 2016

Quarterly Progress Report
Report No. 6 – Submitted April 2016

1.0 Project Summary

The Lorain County Brownfield Coalition will use a \$600,000 grant to assess properties and quantify risks to human health and the environment. The Coalition will use U.S. EPA funds to conduct Phase I and II environmental assessments, remedial planning and design and community outreach at brownfield properties that are currently underutilized and abandoned. The money will be split between hazardous substances (\$450,000) and petroleum (\$150,000). Funds will help determine potential risks to human health and the environment, and plan for cleanup to eliminate these risks and promote sustainable redevelopment. Five coalition members are guaranteed to have at least one property assessed in their jurisdiction, and the Coalition has created an application for non-Coalition jurisdictions to complete if they would like funding for their community. Further, the LPA will use U.S. EPA funds as “seed money” for leveraging additional brownfields grants for assessment, remediation and acquisition.

5.0 Problems Encountered/Assistance Needed

No problems or delays were encountered during this reporting period.

6.0 Measures of Success – Grant Program Indicators

Following execution of the cooperative agreement (CA), the Coalition went through the Qualifications process to select an environmental consultant. The Coalition received qualifications packets from thirteen consulting firms, and selected two in order to move as quickly as possible: Partners Environmental, Inc. and Hull & Associates, Inc. Agreements specify that the Coalition will make a best faith effort to divide funds as equally as possible between the consultants.

The RFQ was prepared in September 2014 and was advertised on September 3rd and 10th, 2014.

Contracts were executed with Partners Environmental and Hull & Associates on December 10th, 2014.

QAPP for Hull & Associates and Partners Environmental were submitted to Chicago EPA February 2015. Both have since been conditionally approved with revised QAPP sent to EPA.

Three Phase 1s are currently underway. One Phase 2 is currently underway.

<u>Proposed Deliverables</u>	<u>% Completed</u>
QAPP (Draft)	100%
SAP/Phase II ESAs	75%
