

Ohio County Records Manual

Thank you for using the Ohio County Records Manual published by the Ohio Historical Society's Local Government Records (LGR) Program. This manual lists many county record series and provides *suggested* retention periods. Records that are not listed in this manual should be evaluated by the records creator and local records commission in order to determine an appropriate retention period. To determine of the retention period of a record series, evaluate the series based on its administrative, legal, fiscal, and historical value to the county or the State of Ohio.

A record has **administrative** value if it is needed to conduct the current business of the county office creating it. Administrative value diminishes over time because it is no longer needed for current business.

A record has **legal** value if it documents or protects the legal rights of the county office that created it. Records possessing legal value should be retained until the legal rights or obligations to which they pertain expire.

A record has **fiscal** value if it is used in accounting for public funds. Records having fiscal value must be retained at least until the accounting records have been audited. Records of activities funded with combinations of state and federal funds often must be retained longer than records pertaining solely to county funds.

A record has **historical** value if it has continuing historical value to the State of Ohio and its citizens. The Ohio Historical Society Local Government Records Program staff makes this determination.

The retention periods suggested in this manual are based upon the application of each of the four values of records to each record series. Please be aware that these values are not static and can change as fiscal and legal requirements change. A local government may adopt retention periods different from those suggested in this manual.

Using this Manual

This manual is presented in chapters corresponding to major offices found in Ohio county governments. *All* county departments, boards, commissions and other entities associated with the county can use the General Records Schedules found at the back of the Manual after it has been properly approved.

Note: "Audited" and "Provided Audited", when used in this manual and on all RC-1, RC-2 and RC-3s, means: the years encompassed by the records have been audited by the Ohio Auditor of State and the audit report has been released pursuant to Section 117.26 Ohio Revised Code. To confirm audit periods and release dates, contact your fiscal officer or the Ohio Auditor of State's Clerk of the Bureau, Columbus.

Role of the Ohio Historical Society

The Ohio Historical Society (OHS) is designated by section 149.31, Ohio Revised Code, as the "archives administration for the State of Ohio and its political subdivisions." As such, when local

governments dispose of records, OHS has the first right to select records for permanent archival preservation that have continuing historical value to the State of Ohio and its citizens (Sec. 149.38 ORC). To fulfill these responsibilities, OHS administers the Local Government Records Program (LGRP). The LGRP works with counties to develop practical records management programs. For more information about establishing a records management program, you may want to refer to the *Local Government Records Handbook*. The Ohio Historical Society has designated eight Ohio Network of American History Research Centers (Network Centers) as depositories for local government records within their respective regions. Counties devoting space to the storage of historical records may want to consider transferring those records for permanent preservation in a true archival setting at no cost to the county while permitting access to researchers. County records transferred to the custody of a network center retain their own identity as records belonging to the originating county and are available to the originating county should the need arise.

"Bulk commercial special extraction request" does not include a request by a person who gives assurance to the bureau that the person making the request does not intend to use or forward the requested copies for surveys, marketing, solicitation, or resale for commercial purposes.

BRIEF GUIDELINES FOR MICROFILM

Storage Conditions

- . Original Camera Negative: Store original off-site in a secured limited access location that has protection against fire, water, chemical damage, and other disasters. Store this master negative at 40 percent - 50 percent relative humidity and 60°-70°F, both humidity and temperature to remain stable. Do not mix silver halide, vesicular and diazo microfilm in the same cabinet.
- . Roll Film: Store on reels of non-corrosive metal or inert plastic.
- . Other microforms: Store in inert metal, plastic film cans, or acid-free paper cartons/boxes.
- . Office use copy of microforms: Use diazo or vesicular microfilm for office use and reference. Store at normal office temperatures in files or drawers that can be closed when not in use. Do not keep diazo and vesicular microfilm in the same cabinet.

Production Standards

- . Camera Negative and Processing: Should meet the American National Standards Institute (ANSI) standards for archival permanent microfilm. Microfilm processor should send certification letter with each roll attesting to the following:
 - . Camera Negative Resolution: Sharpness 100 lines/mm or better.
 - . Camera Negative Density: Background density between .70 and 1.5 depending on the document being filmed.
 - . Camera Negative Chemical Stability: Residual fixer (sodium thiosulfate) must not exceed 1.4 microgram per centimeter squared.
 - . Reduction Ratio: This can vary therefore conform to ANSI/AIIM MS14-1988, Section 6.7 Standard.
 - . Splices: Never use pressure sensitive tape on the camera negative.
 - . Use microfilm targets on all work.

Microfilm Targets

	Target	Explanation
1.	BEGIN ROLL #__	Must be eye-legible; begin each record series anew with roll #1.
2.	TITLE BOARD	Must be eye-legible; for example: Akron City Council Minutes - 1919
3.	UNIT CONTINUED FROM PREVIOUS ROLL (if applicable)	Must be eye-legible.
4.	PUBLIC OFFICIAL'S CERTIFICATION	Certifies microfilm is an official record of a public office and complies with Section 9.01 ORC.
5.	NOTES TO RESEARCHERS	Typed on white paper providing user with information such as where original

		material is located, who filmed records, and where copies are available.
6.	TECHNICAL TARGETS	Include the five (5) standard resolution charts for planetary or one (1) resolution chart for rotary plus target stating the reduction ratio.
7.	CERTIFICATION BY MICROFILM CAMERA OPERATOR OR VENDOR	Certifies the date microfilm created and type of work performed by camera operator and vendor.
8.	SPECIAL NOTATIONS MATERIAL MISSING PAGES MISNUMBERED RETAKE INSERTED HERE	Other eye-legible targets may be made up on white paper as needed.
9.	UNIT CONTINUES ON NEXT ROLL	Must be eye-legible. (if applicable)
10.	END OF ROLL REWIND	Must be eye-legible.

Suggested Microfilm Box Label

AKRON CITY COUNCIL MINUTES 1945, 1949 - 1954	ROLL 13
---	----------------

It is important to include all necessary identifying information on the microfilm box label so there will be no doubt about the contents of each box. The labels are intended to indicate the actual contents of the roll not just the starting and ending dates of the records. In the above example, it clearly shows the 1946 - 1948 Minutes are not on this roll of microfilm.

An eye-legible target is one that can be read without using a microfilm reader. A restaurant menu board could be used create these targets. Eye-legible targets can also be created using the variety and sizes of fonts now available in word processing programs.

AMERICAN NATIONAL STANDARDS INSTITUTE (ANSI) STANDARDS

For copies of ANSI/AIIM Standards which cover microfilm, microfiche, and computer output microfilm (COM), contact The Association for Information and Image Management International (AIIM), 1100 Wayne Avenue, Suite 1100, Silver Spring, Maryland 20910-5603. Please note that printed copies of the ANSI standards and technical reports are quite expensive. Professional creating or processing microfilm should know and comply with ANSI standards. This is especially important if the micrographic images are created to replace original records pursuant to Section 9.01 ORC. After microfilming, do not destroy any public record unless you have an approved RC-1 or RC-2 stating that "the records will be destroyed after microfilming" and you have submitted a properly completed RC-3 to the OHS - LGRP.
